CONSULTING & TRAINING

THE FUNDAMENTALS OF ISO

PLAN

Plan what it takes to do the job right in all phases of an organization.

- Analyze current practices
- Measure against customer expectations and ISO requirements
- Determine approach to eliminate the gaps

DOCUMENT

Document the plan.

- Formalize your plan in policies and procedures
- Create procedures only to the amount of detail required by your organization
- Control the flow of information to ensure it is current

ADHERE

Adhere to the documented plan.

- Implement your plans through coaching and training
- Evaluate the effectiveness of your quality system
- Implement improvement
- Audit to ensure compliance

OUR REPUTATION IS BASED ON SATISFACTION

ISO 9000 Worldwide

ISO 9000 Certification is becoming the standard by which companies are being measured, and upon which success is dependent. G.R. Technologies offers the training, consulting and auditing you need to efficiently achieve your ISO 9000 registration. Our experience and guidance in this field is recognized and applauded by major companies, in both the manufacturing and service sectors.

What is ISO 9000?

- Quality System Requirements based on 'Good Business Practices'
- Highly regarded set of standards (worldwide)
- Organized and systematic approach to managing within organizations
- Company-wide focus on Quality of Products or Services
- Flexible in its application

Common misconceptions

- Stifles creativity by being inflexible
- Creates excessive bureaucracy
- Complicated and restrictive documentation requirements
- Increases operating expenses
- Changes company hierarchy
- Reduces an organization's ability to respond quickly to customer needs

What are the advantages of ISO implementation?

- Consistency of activities within the company
- Drive organizations to be proactive rather than reactive
- Promotes efficient internal communications between functions
- Achieves customer recognition
- Establishes a platform for continuous improvement
- Identifies and eliminates duplication of effort
- Highlights problems and forces correction

**GUARANTEED
RESULTS**

PROVEN APPROACH

We have taken over 80 companies to ISO 9000, QS-9000, and ISO 14000 registration, using our six point plan.

Our philosophy is to enhance your company and ensure the high standard of quality is met. We build on your existing practices, and introduce meaningful changes.

TO SUPPORT THE PLAN

We Will:

- Facilitate teams
- Provide training as needed
- Establish contact with registrar
- Assist during third party audit
- Apply software
- Utilize our public seminars

SIX POINT PLAN

1. MANAGEMENT

- Form steering committee
- Appoint coordinator
- Provide awareness training
- Allocate resources

2. ACTION PLAN

- Perform needs analysis
- Select suitable approach
- Select registrar
- Prepare schedule

3. DOCUMENTATION

- Develop policy manual
- Prepare procedures
- Write work instructions
- Perform desk audit

4. IMPLEMENTATION ON-SITE

- Utilize teams
- Apply vital tools
- Train as required
- Monitor progress

5. INTERNAL AUDIT

- Check all system elements
- Develop corrective actions
- Follow up

6. PREPARE FOR REGISTRATION

- Orchestrate activities
- Do pre-registration audit
- Attend third party audit
- Obtain registration

GUARANTEED RESULTS

We guarantee that you **will** become registered with our Six Point Plan, while staying **within** your budget and **on** schedule.

Thanks, G.R. Technologies

Without G.R. Technologies, this achievement would not have been possible.

J.P. Trembley, V.P. Royal Canadian Mint

We would like to take this opportunity to express our appreciation for the excellent consultation and training services that G.R. Technologies provided, to help us achieve certification.

Lorne Hilts, President, Exide Canada Inc.

I would like to thank all the staff at G.R. Technologies for their assistance, support and encouragement leading up to and including the audit, to achieve Registration with zero non-conformances.

Gerry Caven, Q.A. Manager, T.I. Group Automotive Flexibles

I would like to thank G.R. Technologies for all their support and extended efforts in making our Registration a success. The Six Point Plan program was of great benefit to Armada's accomplishment of Registration on their first try.

James Boyden, Armada Group

On behalf of the management and employees of Prototier-1 Inc., we would like to express our appreciation for the outstanding services G.R. Technologies provided to our company in developing and implementing a quality system to meet the requirements.

Zoltar Szabo, Q.A., Prototier-1 Inc.

To a great extent, this achievement of implementing a quality system was made possible with the expert consulting and training assistance provided by G.R. Technologies.

J.M. Bobyk, President, Thermadyne Canada

On behalf of the management and employees, we wish to express our deep appreciation of the excellent consultation and training services rendered by G.R. Technologies, to prepare our company to develop and implement a quality system to meet the requirements.

J.J. Jackson, General Manager, Anti-friction Enterprises Ltd.

Company Profile

Established in 1977, G.R. Technologies specializes in developing quality and environmental systems for industry. A team of professional engineers and consultants has assisted over 80 major companies in obtaining ISO 9000, QS-9000 and ISO 14000 registration. G.R. Technologies also specializes in Tooling and Equipment Supplement support and ISO/TS 16949.
